he Union Territory with effect from nd April, 1973. The Bombay Coopeative Societies Act, 1925 as extended o Delhi stands repealed thereafter.

The DDA has prepared the format of the perpetual lease-deed to be executed by the Cooperative Housing Societies based on the DDA (Disposal of Developed Nazul land) Rules, 1981, on the 5th February 1984. DDA have no proposal to revise this format.

Plan to Improve the performance of Sportsmen in Universities ..

2884. SHRI S. W. DHABE:
SHRIMATI RODA MISTRY:

Will the Minister of EDUCATION AND CULTURE be pleased to state:

(a) whether any plan has been drawn to improve the performance of sportsmen in the various Universities in the light of experience gained by the Indian contingent during the World Olympics recently held at Los Angeles;

(b) the amount of grant given for sports development by the University Grants Commission during the last three years and how much amount out of that was availed off in the same period by various Universities; and

(c) whether any evaluation has been made of the sports facilities provided in the Universities?

THE MINISTER OF STATE IN THE MINISTRIES OF EDUCATION AND CULTURE AND SOCIAL WELFARE (SHRIMATI SHEILA KAUL): (a) Preparations for formulation of detailed programmes to be implemented in the Seventh Plan including the provision of necessary facilities for sports and games in the universities and colleges are now in progress. However, these plans are still to be finalised.

(b) The UGC has sanctioned the following grants during the last three years for development of play fields, purchase of accessories for sports and games and construction of gymnasium:

1981-82	..	Rs. 3.205 lakhs
1982-83	..	Rs. 2.35 lakhs
1983-84	..	Rs. 1.27 lakhs

(c) No such evaluation has been made by the University Grants Commission.

Eradication of diseases damaging orange trees

2885. SHRI S. W. DHABE:
SHRIMATI RODA MISTRY:

Will the Minister of AGRICULTURE be pleased to state:

(a) what steps the Central Government have taken for the eradication of Kolsi and other diseases which damage orange trees in Maharashtra and other States;

(b) whether any research has been conducted to improve the quality of orange to make it seedless; and

(c) whether any research centre has been set up for this purpose; if so, at what place?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI YOGENDRA MAKWANA): (a) The Government have emphasised mainly the chemical control of Kolsi disease of orange in Maharashtra which results from continuous infestation of pests like white fly *Psylla* & aphids etc. during seasons when there is a scarcity of water.

There are a large number of diseases and pests known to occur in different species of citrus in various parts of the country. The management practices for these are worked out from time to time and recommended for adoption. Our present emphasis is mainly on the identification of tolerant varieties, production of disease-free planting material, in-
